What is a Bias incident?

A bias-related incident is an incident that negatively targets, intimidates, or threatens an individual or group due to race, ethnicity, ancestry, national origin, religion, gender, sexual orientation, gender identity or expression, age, physical, mental, and intellectual disabilities, as well as past/present history of mental disorders.

This includes, but is not limited to, graffiti or images that harass or intimidate individuals or groups due to the above characteristics.

AGENDA ITEM # 2
HILLEL CAMPUS CLIMATE INITIATIVE

Edina Oestreicher, Executive Director,
UConn Hillel
Campus Climate Initiative
Hillel International’s Campus Climate Initiative (CCI) works collaboratively with higher education administrators to ensure a positive campus climate in which Jewish students feel comfortable expressing their identity and values, free of antisemitism, harassment, or marginalization.

It is based on the premise that key administrative leaders play an essential role in effecting broad-based educational and policy change on campus, and that the university-Hillel partnership can lead to positive changes that will benefit both Jewish students and all students.
The CCI team works with cohort campuses to support them in:

- Gathering data to better understand the current climate for Jewish students on campus
- Training and empowering university administration and staff to understand the needs of Jewish students, the diversity of the Jewish community, and the challenges of campus antisemitism
- Creating and adopting best practice policies, procedures and programs to address antisemitism and foster a positive campus climate for Jewish students and all students
• Six focus groups with 50 students, fall 2021
• Key findings;
  • Most Jewish focus group respondents feel comfortable and welcome on campus.
  • Most Jewish student focus group participants are comfortable but not forthcoming about sharing their Jewish identity.
  • Most Jewish students and alumni perceive the UConn community as lacking understanding of Judaism and Jewish identity.
  • Some Jewish students highlight biases they have encountered related to Israel.
• Key findings:
  • University of Connecticut’s policies have room for improvement when it comes to accommodation of Jewish holidays and observance, but most Jewish students feel that professors support their needs.
  • Jewish and non-Jewish students are aware of instances of antisemitism at UConn; however, most students did not reference these incidents as influential on their campus experience.
  • Discussions about Israel-Palestine appear to have limited impact on most Jewish students.
  • Jewish students view the UConn administration favorably but want the University President to engage more with UConn Hillel.
  • UConn’s Jewish students are interested in engaging with and learning from other groups, but students tend to “stay within their communities.”
Recommendations

• Strengthen incident response and communication
• Provide Jewish identity and antisemitism training
• Include Jews in multicultural programming
• Cultivate closer connection between President’s office and UConn Hillel
• Educate the campus on dialogue across difference
• Create spaces for critical, constructive discourse about Israel/Palestine
• Improve religious accommodations and support
• Conduct a policy review
ENHANCED COMMUNICATION ABOUT RELIGIOUS OBSERVANCES

TRAINING ON JEWISH STUDENT LIFE & ANTI-SEMITISM FOR CAMPUS ADMINISTRATORS

STRONG RELATIONSHIP BETWEEN INTERIM PRESIDENT MARIC AND UCONN HILLEL

CREATION OF BIAS ACTION GROUP

ENHANCED SOCIAL MEDIA COMMUNICATION ABOUT JEWISH OBSERVANCES
CCI ACTION PLAN
RECOMMENDATIONS

• Convene a work group to guide a policy review
• Collaboration on multi-faith/multi-cultural programming
• Include 1-credit antisemitism course as part of new student DEI orientation
Thank you
