INCLUSIVE LANGUAGE BUILDS COMMUNITY

Practice active allyship: Educate yourself on how your neighbors may be different from you. Practice kindness and respect when interacting with them. Confront friends when using language or overt ignorance of others.

WHAT IS IT?

It is language that avoids the use of certain expressions or words that might be considered to exclude or be harmful to particular groups of people. There is no othering of people based off their identities.

Inclusive language acknowledges diversity, conveys respect to all people, is sensitive to differences, and promotes equal opportunities.

What you are comfortable with may be passed someone else’s limit. Be mindful of others!
